

Information Security Policy v1

Section 1: Endpoint Device Standards

- 1.1 Laptop Usage: Corporate assets must be accessed using company-managed laptops only. Personal devices are prohibited.
- 1.2 Local Copying: Local storage of company files on endpoint devices is prohibited to prevent data leakage.

Section 2: Login and Access Controls

- 2.1 Password Expiration: All passwords must be changed every 90 days to prevent compromised credentials.
- 2.2 Network Protection: Virtual Private Network (VPN) must always be used when working remotely.

Section 3: Information Governance

- 3.1 Data Classification: All organizational data must be labeled as public or confidential.
- 3.2 Log Purging: Audits show system event logs are automatically archived monthly.
- 3.3 Account Disabling: Disabling user accounts must happen immediately upon employee termination.
