

Remote Work Policy v2

Section 1: Flexible Workforce Guidelines

- 1.1 Device Access: Personal laptops and tablets are allowed to access company resources under supervisor permission.
- 1.2 Endpoint Storage: Local storage of company files is allowed if the drive is fully encrypted.

Section 2: Credentials and Infrastructure

- 2.1 Login Credentials: Password changes are required every 180 days.
- 2.2 Remote Connection: Virtual Private Network (VPN) is recommended when connecting remotely.

Section 3: Information Management

- 3.1 Data Classification: All organizational data must be labeled as public or confidential.
- 3.2 Event Archiving: Audits verify server logs are systematically archived monthly.
- 3.3 IT Offboarding: Return of physical keys and tokens is required during employee offboarding.
